Comments

#1 - The course gave a glimpse into the Graphic Communications major, it was vague by design. I have nothing specific or really meaningful to say about it because of this.

- #3 - most of everything on her tests reflected what we had discussed in class
- #5 - relayed information ver effectively
- #6 - Very easy to get in touch with outside of class. Quick to respond to e-mails and very informative powerpoints.
- #7 - The instructor was nice, speaks clearly, and knowledgeable. I was glad the course wasn't too strenuous or time-consuming. I liked being able to learn about different things I can do with my degree, and future things to look forward to in the department. My favorite lecture was the next to last class when 2 seniors came in and talked about the Graphics field, their college experience with GC, etc.
- #8 - very friendly, great teacher, knows what she's talking about.
- #11 - good intro to the major program
- #12 - Informative. Friendly. Kind. Helpful.
- #19 - positive interaction between students, very interesting class and very organized
- #20 - No strengths.
- #21 - Nice teacher but since it wasn't my major interest dwindled

G19. Please comment on the weaknesses of the instructor and the course.

Student	Comments
#1	The weakness of this course was its lack of involvement; it seemed a less detailed version of GC104. Because I am in that class this semester as well it was very boring to me to hear basically the same material twice.
#3	powerpoints didn't give much detail in explaining things for tests
#5	none
#7	I thought some of the projects were stupid. I hate that people have to take this class before any other GC course. It was a little boring, and I think it turns some people away from the GC major.
#8	none
#9	I only learned information during test times.
#12	None.
#15	Things in the class weren't always clear and meeting once a week didn't help anything.
#20	The material on the tests and projects were not taught in class.
#21	BORING...most of the class seemed pointless almost like there was no point in taking the class. After we learned about the processes we didn't learn anything else.

G20. Please comment on any teaching methods you found particularly helpful, and suggest alternative methods that you feel would improve the course.

#1	I did enjoy the visitors we had, such as the other GC majors that could give us more personal views on the material.
#3	she got a lot of speakers to come talk to us which helped relate our major to real life things
#5	talked and communicated to students effectively
#6	The guest speakers.
#7	I liked being able to have the powerpoint in front of me
#8	the use of powerpoints that clearly displayed information was helpful.
#9	More information on power points, please!
#11	multiple guest speakers helped to provide an inside look to the program
#19	I liked the use of the power points and how students came in and talked with us.
#20	Powerpoints would have been effective if they would have had information on them instead of questions.
#21	Lectures put me to sleep especially when you are just going to put the powerpoints up for people.

G21. I would recommend this instructor to a friend. Yes or no? Why?
